

PHOTOSHOW

A photo show is a visual reminder encouraging conversation & reflection.

Broadbent & May can create a photo tribute, with a music track of your choice, to be screened either during the funeral service at a time of reflection or as a continuous loop before the service as people gather.

- Select approximately 50 photographs in either digital or hardcopy format (we can scan these for you)
- Choose an appropriate piece of music, preferably between 4 to 5 minutes in length (we can usually source this for you)

The scanned photographs and photo show will be provided to you on a USB stick. From this you can create multiple copies if you want.
